IV.	Housing Application Fee Increase Request	Stephanie Coleman
		Vice Chancellor Administration & Finance

Situation: Campus Living would like to adjust the housing application and pre-payment fees. Both

fees would be adjusted to a non-refundable \$135 housing application fee and eliminate

pre-payment fees.

Background: Currently, a first-time student must pay a \$100 application fee and a \$100 housing pre-

payment when completing their housing application. This is a \$200 combined payment. The application fee is non-refundable. The pre-payment is applied to Spring Housing charges unless the student cancels. If a student cancels their contract, this results in forfeiture of the pre-payment unless certain criteria are met (i.e. Study Abroad).

Returning students are also required to make the \$100 pre-payment.

The new structure will be less confusing for students, lowers the barrier to entry from \$200 to \$135 for first-time students, places ECU in a competitive position versus our instate competition, creates an efficiency for staff, and reduces the risk of students being

placed into collections due to institutional processes.

**Assessment:** This change will make the University more competitive in the recruitment of first-time

students and better manage our returning student room inventory.

**Action:** This item requires a vote by the committee, with a vote by the full Board of Trustees

through the consent agenda.

#### **AGENDA ITEM**

IX. C	Pension Spiking	Stephanie Coleman		
		Vice Chancellor for Administration & Finance		

Situation:

In order to assist employing agencies with planning and budgeting to comply with the Contribution-Based Benefit Cap (CBBC), the State Treasurer's Office provides a monthly report of members who may require additional employer contributions should they elect to retire in the following 13 months from the date on the report. The Chief Financial Officer is required to provide a copy of the report to the Board of Trustees.

Background:

During the 2014 General Assembly session, CBCC legislation was enacted effective January 1, 2015. This legislation was created to control the practice of "pension spiking" in which a member's compensation substantially increases resulting in a monthly retirement benefit that is significantly greater than the member and employer contributions would fund. The CBBC was created to protect each system from absorbing the additional liabilities caused by compensation decisions made by other employers. This legislation applies to members who retire on or after January 1, 2015, with an average final compensation of \$100,000 or higher (adjusted annually for inflation) and requires the member's last employer to pay the additional contribution required to fund the member's benefit in excess of the cap.

**Assessment:** 

The report provides a list of potential employees, including those whose compensation average may approach the threshold. It includes employees who may be eligible to retire in the next 13 months (at a reduced or unreduced benefit), whose salary is \$100,000 or greater, and whose estimated monthly retirement benefit exceeds the CBBC based on information in the employee's most recent annual benefits statement. The list is not exhaustive, and members included on the lists may or may not exceed the CBBC upon retirement. This is merely a notification of a potential cost that ECU may be required to pay, in the form of a lump-sum payment, due after the member retires. When a member submits their intent to retire, the State Treasurer's Office completes a Pension Spiking calculation using the CBBC and provides a statement to ECU if it is determined that additional contributions are due. Employers are not required to pay the additional contributions for employees hired on or after January 1, 2015.
