The new process and the software that will be used to manage it are being piloted beginning December 1. The regulation outlining the revised process will be posted for comment by University students and employees from December 1 through January 31. The process is expected to be fully live soon after the open comment period ends.

East Carolina University Enterprise Risk Management
2022-2024 Cycle Secondary Risks
(These were considered by the ERM Committee but are not presently considered “top risks”)

- ECU’s reputation and visibility in large urban areas/competitive markets and with financial supporters (donors, legislators)
- Governance relationships and the impact on ECU’s reputation, budget, and support (in the top 10 during our previous risk cycle)
- Sustainability of academic and student support programming and services and ability to meet student needs and parent and societal expectations, especially in the current environment (in the top 10 during our previous risk cycle)
- Technology backup, recovery, and continuity and coordination of priorities between IT and functional management
- Increased risk in academic integrity issues with the number of remote students and exams
- Legal liability issues specifically related to or resulting from COVID-19, including health and safety, student access, long-term accommodations, and employment matters (EEOC, ADA, etc.)
- Inability to sustain innovation and economic development due to resource constraints, impacting the engagement with and positive outcomes for eastern NC
- Business continuity planning that could be insufficient to prevent an operational failure from a disaster or other significant event(s)
- Lack of dedicated identification and monitoring of sponsored program expenditures and tracking of institutional metrics for externally funded research amplified by inadequate interfaces between the information systems used for research
- Conflicts of interest in research and patient care, which could result in loss of external funding and reputational damage
- Affiliated Entities’ risk of noncompliance with operating agreements, misalignment with the university’s mission, and potential for reputational damage
- Social unrest that could result in unsafe conditions, property damage, or reputational damage (could be related to students, employees, or the general public)

East Carolina University Enterprise Risk Management
Emerging Risks

- Inability to sustain extramural research and sponsored programs due to resource constraints, impacting faculty scholarship, discoveries and advances, faculty recruitment and retention, and student engagement.
- Responding to the changing demographics of our students. Adult learners’ needs will be different than traditional college-aged students. Adult learners will not be as interested in student affairs services such as clubs, organizations, activities, etc., or perhaps athletics. The University will need to right-size these and other services to meet the needs of our different student populations.
- Artificial intelligence – the rising availability and use of which presents opportunities in higher education, but also increases risks related to academic integrity, research, data privacy and security, and student educational outcomes. (Added Nov 2023.)

• The North Carolina gaming commission will work with the athletic department and NCAA Enforcement (when necessary).
  • There are active sports wagering cases at various institutions involving student-athletes and coaches, in which the gaming commission notified the institution and the NCAA.

• Student-athletes who violate NCAA sports wagering rules will be ineligible for competition and may lose a year of eligibility, subject to appeal to the Committee on Student-Athlete Reinstatement.

• In January 2024, the NCAA council adopted NIL student-athlete protection proposals. The effective date is August 1, 2024.
  • Defines NIL in the NCAA Manual
  • Requires NIL Disclosure Forms from Student-Athletes
  • Requires NIL Disclosure Process for Prospects
  • Requires Institutions to Submit NIL Disclosure Forms to the NCAA
  • Requires Institutions to have a Comprehensive NIL Education Program
